Create groups with up to five young people in each and ask them to list as many animals as they can in 60 seconds.

Once the time is up, each group must read out their list of animals and eliminate any that appear on multiple group lists. A group scores a point for each animal on their list that no other group has written down. The group with the most points wins (optional – hand out bonus points for the most unique animals).

YOU WILL NEED

1. Paper.
2. Pens.
